

General Chairs

Tieshan Li, University of Electronic Science and Technology of China, Chengdu, China
 Jiancheng Lv, Sichuan University, Chengdu, China

Advisory Chairs

Gang Feng, City University of Hong Kong, Hong Kong
 Hanxiong Li, City University of Hong Kong, Hong Kong
 Shaocheng Tong, Liaoning University of Technology, Jinzhou, China
 Jun Wang, City University of Hong Kong, Hong Kong
 Gary Yen, Oklahoma State University, Stillwater, OK, USA

Organizing Chairs

Yuhua Cheng, University of Electronic Science and Technology of China, Chengdu, China
 Yunqiang Yin, University of Electronic Science and Technology of China, Chengdu, China

Program Chairs

Yongming Li, Liaoning University of Technology, Jinzhou, China
 Hongjing Liang, University of Electronic Science and Technology of China, Chengdu, China
 Zhouhua Peng, Dalian Maritime University, Dalian, China

Special Sessions Chairs

Jianchao Fan, Dalian University of Technology, Dalian, China
 Bin Li, Sichuan University, Chengdu, China
 Xin Wang, Southwest University, Chongqing, China
 Wenying Xu, Southeast University, Nanjing, China
 Yi Zuo, Dalian Maritime University, Dalian, China

Tutorials/Workshops Chairs

Tingwen Huang, Texas A&M University - Qatar, Doha, Qatar
 Zhigang Zeng, Huazhong University of Science and Technology, Wuhan, China

Publicity Chairs

Deqing Huang, Southwest Jiaotong University, Chengdu, China
 Chuandong Li, Southwest University, Chongqing, China
 Xingwen Liu, Southwest Minzu University, Chengdu, China
 Dujuan Wang, Sichuan University, Chengdu, China
 Nian Zhang, University of District of Columbia, Washington, DC, USA

Publications Chairs

Lu Liu, Dalian Maritime University, Dalian, China
 Yue Long, University of Electronic Science and Technology of China, Chengdu, China
 Fei Teng, Dalian Maritime University, Dalian, China
 Anqing Wang, Dalian Maritime University, Dalian, China

Registration Chairs

Shenshen Gu, Shanghai University, Shanghai, China
 Lu Yang, University of Electronic Science and Technology of China, Chengdu, China
 Dan Zhao, University of Electronic Science and Technology of China, Chengdu, China

Local Arrangements Chairs

Zhenlei Chen, Wei Huang, Jinliang Shao, and Hanmin Sheng, University of Electronic Science and Technology of China, Chengdu, China

Call for Papers

Sponsor: University of Electronic Science and Technology of China

Co-Sponsor: City University of Hong Kong

Technical co-sponsor: IEEE Systems, Man and Cybernetics Society

The 14th International Conference on Information Science and Technology (ICIST 2024) will be held in Chengdu, China during December 6-9, 2024. Situated in southwestern China, the conference site features rich cultural heritages and spicy local foods. Following the successes of previous events, ICIST 2024 aims to provide a high-level international forum for scientists, engineers, and educators to present state-of-the-art research and applications in related fields. The conference will feature preconference, tutorials, plenary speeches given by world-renowned scholars, regular sessions with broad coverage, and special sessions focusing on popular topics and pre-conference tutorials/workshops to warm up the main event.

Call for Papers and Special Sessions

Prospective authors are invited to contribute high-quality papers to ICIST 2024. In addition, proposals for special sessions within the technical scope of the conference are solicited. Special sessions, to be organized by internationally recognized experts, aim to bring together researchers on special focused topics. Papers submitted for special sessions are to be peer-reviewed with the same criteria used for the contributed papers. Researchers interested in organizing special sessions are invited to submit formal proposals to ICIST 2024. A special session proposal should include the session title, a brief description of the scope and motivation, names, contact information, and brief biographical information on the organizers.

Topic Areas

Topics of contributing papers include, but are not limited to, the following areas:

Computer Science and Engineering

Computer networks, computer vision, pattern recognition, virtual, reality, parallel and distributed computing, high-performance computing, artificial intelligence, computer graphics, big data, cloud computing, database management systems, mobile agent computing, quality of services and communication protocol, mobile computing for e-commerce, cryptography and information security, scientific and engineering computing, hybrid computational methods, data visualization and virtual reality, web- and grid-based computing and simulation, possibility theory, Bayes network and hidden Markov models, computational intelligence, granular computing

Control and Automation

Autonomous systems, linear and nonlinear control, robust control, learning and adaptive control, intelligent control, optimization-based and optimal control, model predictive control, fault detection and identification, hybrid intelligent systems, neural control, fuzzy logic control, networked control, industrial automation, process control, robot control, mechatronic systems, vehicle control systems, intelligent transportation systems, environmental monitoring and control, intelligent manufacturing systems, microprocessor-based control, motor control, power control, vehicle control, aerospace control applications.

Signal Processing and Telecommunications

Adaptive filtering & signal processing, audio/speech processing and coding, compressive sensing and sparse representation, higher-order spectral analysis, nonlinear & blind signal processing, neural signal processing, component analysis, array signal processing, parallel and distributed processing, time series analysis, multimedia signal processing, design and implementation of signal processing systems, DSP Implementations and embedded systems, image and multidimensional signal processing, image processing & understanding, multimedia communications, next-generation wireless/wireline communications, communication signal processing, modulation and channel coding, network coding, sensor networks

Bioinformatics and Biomedical Engineering

Microarray data analysis, gene regulation, network, and pathway analysis, identification and classification of genes, protein structure prediction, next-generation sequencing and metagenomics, protein, DNA/RNA structure, function, and interactions, functional genomics and proteomics, molecular evolution and phylogeny, neuroinformatic, brain-computer interface, clinical engineering, rehabilitation engineering, neural engineering, biomedical signal analysis and modeling, bio-imaging, sensing, and data fusion, biomarker discovery, health informatics, healthcare data acquisition, analysis, and modeling, biomedical data knowledge extraction, biomedical data integration, modeling, and preprocessing, biological data mining, knowledge sharing, visualization, and knowledge utilization, biomedical data mining systems and computing platforms, electronic health record acquisition, analysis, and decision support, high performance computing for biomedical data analysis, smart clinical diagnosis and decision systems

Paper Submission

Authors are invited to submit full-length papers (the nominal number of pages is 10) by the submission deadline through the online submission system. Special session organizers are also invited to enlist six or more papers with cohesive topics to form special sessions. The submission of a paper implies that the paper is original and has not been submitted under review or is not copyright-protected elsewhere and will be presented by an author if accepted. All submitted papers will be refereed by experts in the field based on the criteria of originality, significance, quality, and clarity. The authors of accepted papers will have an opportunity to revise their papers and take into consideration the referees' comments and suggestions. Accepted papers will be submitted for inclusion into IEEE Xplore subject to meeting IEEE Xplore's scope and quality requirements. Selected high-quality papers will be included in several journal special issues.

Important Dates

Special session proposals deadline.....July 1, 2024
 Paper submission deadline..... August 15, 2024
 Notification of acceptance.....September 1, 2024
 Camera-ready copy and author registration.....October 1, 2024
